

## Pending Website Modifications

- In admin panel <> course Management <> edit button, the **sub-topic field** should also be included
- When we upload any lecture, the listing should appear according to our order. Right now, random numbers like 4, 3, 2, 1 are being shown.
- In the admin panel, we updated the scholarship table, board table, and class commencement date table for all courses with proper alignment and format, but on the website, they are showing without any format.
- The logo and student photo are being cropped on the Achievement page. Please check the layout and image scaling.
- After assigning the course, it shows up on the web, but it's not updating in the app.
- The scholarship table, board table, and class commencement date table are showing on the website, but they are not showing on the app.
- Video Lec does not have a control button.
